

# A Day Trip

## 1C Cheung Ngai Lam

Hi Tim,

I'm writing to tell you about my plan for the day trip. Here are the details for the day trip.

First, we will go to yum cha in the morning. Dim sum is part of Hong Kong's food culture. You can try dim sum in the restaurant. They are very yummy.

Then we will go to ICC. ICC, which is on top of Kowloon Station, is one of the world's tallest buildings. We can go to ICC by MTR. The Observation Deck on the 100<sup>th</sup> floor of ICC has a coffee shop, a gift shop and some exhibits on show. The deck offers a full view of Hong Kong.

Next, we will go to Aberdeen Floating Restaurants. One of the restaurants, Jumbo, is a beautifully decorated restaurant in the style of a Chinese Palace and is floating on water among small fishing boats. The food there is really yummy! I think you will like it. You like seafood, don't you?

Finally, we will go to the Peak. The Peak is world-famous for its breathtaking day and night views of Hong Kong. You are going to take a lot of photos for your family. We will end our day trip on the Peak.

What do you think about my plan? Please let me know in your reply.

See you!

Cheers,  
William

**Teacher's Feedback:** William, well done! It is an interesting day trip plan. You do show some attractive activities for people to do in Hong Kong. You may introduce some local food, too. The ideas are well developed and you use some complex sentences. Keep up your good work! (Ms Cheng Kit Wai)
