

An Unforgettable Experience

2A Sunny Kwok

Last summer holiday, I visited Thailand with my family. When we arrived there, we were all very excited.

On the first day, we went to an amusement park. There were different types of rides there. We first went to the Haunted House. It was very scary. I screamed when a ghost suddenly jumped out. It frightened us with its horrible face. Luckily, we went out safely.

Then we went on the pirate ship. It swung up and down and I was so excited. Five minutes later, we went on the roller coaster. It did not go very fast and we could see all the scenery, which was very nice.

At three o'clock, we went to watch a play and a funny thing happened! A dancer invited me to go onto the stage to dance with her. I was happy and excited. When our performance was finished, all the audience were cheering and clapping their hands!

In the evening, we left the amusement park and went back to the hotel. I was so excited that I could not sleep well that night.

Teacher's Feedback : The content is highly interesting. A wide range of vocabulary is used. Good! (Miss Jessica Tse)

Food For Thought : Apart from the amusement park in Thailand, do you know anything about Thailand? Her history, culture...?
