

My Best Friend

3E Chan Sze Long

Sally is my best friend. I have known her for two years. She is cheerful and funny. I always count on her whenever I have troubles.

Sally likes reading and singing. She always sings in front of me and asks for my opinion. She is good at re-writing the lyrics as well. She can quickly take down any ideas and turn them into words. I would not be surprised if she becomes a song writer one day.

Last week, a school bully in my class tried to take away my pencil case. I was too frightened to respond. It was at this time Sally appeared in front of me. She and her friends went up to the bully and asked for my pencil case. To my surprise, the bully returned my pencil case without making any further trouble.

Sally is helpful and courageous. Whenever I need help, she is always on my side.

Teacher's Feedback : Some of the qualities you mentioned in paragraph one should be further explained. Also you should give examples of why and how Sally is helpful and courageous. In addition, you can extend the conclusion by reviewing the qualities Sally possesses. (Miss Chan Mei Ngan)

Food For Thought : If you were the author, would you consider this the only solution to the incident?
