

A Leaflet About Pets

3B Nana Shih

Dogs

Dogs are good pets. They are very friendly. Some species of dogs are very gentle. If your family members are allergic to pets, you should choose short fur species.

Food

You can give some bones to them. This is their favourite food. When they see the bones, they will be very gleeful. So, you don't have to worry about what they eat.

Accommodation

You can keep your dog in a cage or a basket to make it feel safe. Some dogs like to stay in big gardens or baskets; thus you need to buy a house for your dog. It will enjoy itself.

What your dog needs

You need to train your dog properly. You also need to reserve time to take it to a vet to ensure it is physically healthy.

Attention

Apart from physical needs, your dog needs your patience and care. Spare some time to accompany and comfort it. You should cherish the quality time spent with it, too.

Teacher's Feedback : This piece of writing serves the purpose of a leaflet: to inform the readers what they need to pay special attention to when they raise dogs as pets. It is a very informative leaflet. (Miss Sandra Ng)

Food For Thought : Would you consider keeping dogs at home after reading this leaflet?
