

## A Diary Entry

1D Fiona Lee

This morning, my Mum and Dad took my cousin and me for a picnic in Lion Rock Country Park. We walked around the park and we saw many lovely monkeys. All monkeys are on the trees, so we took pictures of them. Maybe they didn't like our photo-shooting, they looked angry.

Dad found a free table, so we all sat down and started eating. We have brought some bananas, bread, apples and drinks. The camera was very heavy, so I put it on the table. But unluckily, when I was eating a banana, a monkey was stealing my camera. I didn't know what I could do.

I sat down and told my mother what was happening, my mother said, "Go and take it back!" My cousin and I jumped to our feet and started to chase the monkey. But the monkey was running very fast. We couldn't chase the monkey.

Today is a wonderful day. I was very happy. But next time when we go picnic again, I will not bring my camera. Well, that's all for now. What an exciting day! I'll never forget it.

**Teacher's Feedback :** Clear recounting of events in views of structures, use of connectives and clear sequence. You may add more feelings. (Miss Wong Siu Fung)

**Food For Thought :** Chasing an animal is very dangerous. Human being and animals can be friends. Try to show your kindness to them and they will be tame too.
