

A Modern Hero

2E Lee Chun Kit

At one Saturday afternoon, Billy was playing a computer game which was called “Zelma’s Quest”. While Billy was playing the game, he also turned on all of his electronic devices like MP3 player, TV, and PDA etc.

Suddenly, Zelma, the computer game’s main character, jumped out from the computer’s screen. Then she took away all of Billy’s electronic devices. Billy was so scared and tried to turn off the computer but he couldn’t.

After Zelma took all of Billy’s things and jumped back into the computer screen. The monster in the computer was terrified and did not know what to do. Unexpectedly, Billy was so brave that jumped into the computer screen and fought with Zelma and the monster.

Finally, he knocked down Zelma and the monster and took back all his things. At last he jumped back into his world and decided to throw all of his computer games into the rubbish bin. He promised himself that he never played computer games any more.

Teacher’s Feedback : A very good piece of writing. Direct and well organized. However, you may describe more about Zelma and the monster. Also, tell us more about how Billy felt when he saw Zelma. (Miss Cheng Kit Wai)

Food For Thought : If you were Billy, would you think you would give up the computer games so easily?
