

A Film Review: “*Batman – The Dark Knight*”

2E Charles Pong

“*Batman – The Dark Knight*” is an excellent action film. The film is very exciting, but it is horrifying in some ways.

In this film, Batman is fighting against the Joker. The Joker is very strong and evil. He has killed many people. One time, he disguised himself as a nurse and went to blow up a hospital. This time Batman has the strongest opponent to confront. He needs to protect not only the innocent people but also his beloved girlfriend. The Joker tries to control the town minister so that he can stir up the city. He wants to kill Batman. But will he be successful this time?

In this film, I like the Joker the best although I am scared of his maniac laugh and his terrible big mouth. He tells people that his mouth was cut open by a knife and he uses the same knife to kill them all. He laughs whenever he sees people in pain. He is a great actor in the film. I learn that some shots were taken in Hong Kong. I like this film very much.

One supporting actor in the film is notorious for exposing some of his indecent photos on the Internet. Can you guess who he is? He is our Hong Kong actor, Edison Chen. I take pity on him.
