

A Film Review

2A Suki Lai

The film I have watched is “Charlie and the Chocolate Factory”. The director is Tim Burton. It is a funny family movie with amazing visual effects.

The film is packed with funny characters. There are several main characters in this movie. Willy Wonka is a crazy but clever man who owns the factory. He makes lots of different types of chocolate and candies. Charlie comes from a poor family. He is very thin because he does not have enough to eat. During the whole adventure in the factory, he behaves well and Willy likes him. Augustus is a fat boy from Germany and he loves eating. He is silly and greedy. Veruca comes from a rich family. She is arrogant. Mike is an aggressive boy from America. He loves playing video games but he hates chocolate. Violet comes from America. She likes chewing gum. She is a proud and nasty girl.

In the film, Willy Wonka, the candy maker decides to reopen the factory for five children to visit. The children are excited and all hope to win the special prize given to the best child at the end of the tour.

My favourite part of the film is when the dwarfs are dancing and singing. They are very cute and their performances are amazing and enjoyable.

The character I like most is Willy Wonka because he is intelligent. He can change chocolate into birds and you can eat the birds! I would recommend this film to my friends because this film is entertaining and worth seeing.

Teacher’s Feedback : You have done a good job. Your film review includes both facts and opinions. You have used a wide range of vocabulary to describe the main characters. It would be even better if you could mention who stars in the film. (Miss But Suk Kwan)
