

School Life

5C Alex Ip

I think my school life is exciting,
Because there is a girl sitting beside me.....
who is so enchanting.

I want a close relationship,
But the difficulty equals discovering a spaceship.

Till one day, she asked me for my mobile phone number.
And still, I remember.....

She was so glamorous.
And, when I talked to her, I was so nervous.

Looking at her,
Listening to her.....
She is simply..... amazing.

Unfortunately, she's leaving school soon.
It seems that I'll never be able to see the moon.

Teacher's Feedback : Innocent yet sweet secret admiration of a classmate. Some enchanting rhyme pairs which make the lines easy to read and remember. Sad but romantic ending with the soon-leaving girl compared to the distant silvery moon. (Miss Yung Yim Chong)
