

A Speech

1A Yeung Wai Ho

Good afternoon, everyone. Today I'm going to talk about my favourite hobby. I'll tell you the nature, benefits and cost of my hobby.

First of all, my hobby is collecting Star Wars lightsabers. I became interested in collecting lightsabers one year ago. I started to collect lightsabers because I like seeing the characters fighting in Star Wars.

Next, about the nature of collecting lightsabers. Collecting lightsabers is a popular activity in Hong Kong. It's because many people like Star Wars and they think lightsabers are cool. Collecting lightsabers is an individual hobby. We can play with them both indoors and outdoors. We can buy them in toy stores.

Collecting lightsabers is interesting and exciting. It is a healthy hobby because we can share them with our friends and have a great time together. However, it is quite expensive because one lightsaber can cost from \$500 to \$1000.

Collecting lightsaber is so much fun. We should try it out. I would recommend this hobby to my friends and share our lightsabers.

Thank you very much for listening.

Teacher's Feedback : Your hobby is described in detail, with accurate use of gerunds and to-infinitives. The overall structure is cohesive and organized. You can use more conjunctions such as 'However,' to connect your ideas. (Miss Hui On Yee)
