

## Sports Day

1E Moniza Javed

Dear Emily,

It was our school's Sports Day last week. It was a sunny day when we arrived there at 8:30 a.m.

The Sport's Day started at 8:45 a.m. Firstly, we all had assembly. The principal, social worker and chair person were all there. After the assembly we were told where to sit. In our school we have different houses – red, blue, yellow and green. I am in the yellow house. We had many kinds of events – hurdles, shot put, long jump, high jump, 100 and 60 metre sprints and relays. I took part in the 100 metre sprint, the long jump and the 4 x 100 metre relay.

I am not in the cheerleading team in my school. The cheerleading team will cheer for the student competitors and give them medals. I got one silver medal for the 4 x 100 metre relay. Let me tell you what happened that day and how I won the medal.

First I went to the long jump pit. Because I was the shortest I couldn't jump too far and lost. I felt really unhappy, but I thought, "I have two more chances". So when I had the 100 metre race I ran very fast, but unfortunately I fell down, so I also lost this chance. I believed that I could not win anything, but my friend Molly cheered me up. Because of her cheering and caring I finally won a silver medal in the relay race. I was so happy to receive the medal in front of the whole school. I hope next year I can win more medals because I like to show them off.

That was the happiest Sports Day in my life. I hope your Sports Day was as exciting as mine!

Best wishes,  
Jack

**Teacher's Feedback : Your technique of personalizing the story of the Sports Day brought to life the feelings of actually being there. (Mr. Bond)**
