## School-based Chinese Language Learning Support Programme for NCS Students

### Background

The Government is committed to supporting the integration of non-Chinese speaking (NCS) students into the community, which includes facilitating their early adaptation to the local education system and mastery of the Chinese language. To support their learning of the Chinese language, the Education Bureau (EDB) has progressively put in place a series of support measures.

### Measure of the School

In line with the government policy of stepping up the support for NCS students' learning of the Chinese language, we are going to organise a School-based Chinese Language Learning Support Programme with the curriculum structure and mode of learning tailor-made for the needs of the students.
